

Apply to the Renantis Student Scheme for Sustainable Energy Studies

Are you a student considering a career in the renewable energy sector, or a business looking to upskill or reskill your workforce in sustainable energy in Sweden?

At Renantis **partnerships with the communities** around our wind farms are at the heart of everything we do.

We believe in the importance of **nurturing talent**, and we are committed to **supporting the development of professional skills** related to the renewable energy sector in the local areas where we operate.

We are particularly interested in supporting those students or technicians working towards a qualification in **energy and renewables**.

How to apply

ELIGIBILITY CRITERIA

- Applicants must be 16 or over at the start of the course.
- Eligible applicants are those individuals living in a radius of 500 km of Swedish Renantis wind farm community areas (<https://renantis.com/energy-production-and-storage/>).
- Applicants should preferably be involved in study related to the environmental and renewable energy sector, supporting them to a set of skills and qualification.

WHAT THE FUND CAN COVER

- The annual available fund will be shared between the most suitable applicants.
- Renantis Sweden is willing to cover some of the expenses actively supporting the entitled candidates to complete their study. Eligible expenses may include but not limited to the travel/commuting costs, training materials (books, software), internet connection, hardware equipment.
- The candidates who got the support will need to provide receipts or evidence of all their expenses.

To request financial support, apply before 30 november 2023
